

Basic Infrastructure Sourcing – Pre-Qualification

On 3 February 2014, APCA sought responses from NPP interested vendors who were capable of demonstrating their experience and capability to provide the Basic Infrastructure (“BI”) Services, through the release of a Pre-Qualification Questionnaire (‘PQQ’). The deadline for PQQ responses was 17:00 AEST on Thursday 20 February 2014. Responses received after this date will not be considered.

The NPP Program is now evaluating responses and is encouraged by the high degree of interest received from the market.

All vendors who submitted responses before the deadline of 20 February at 17:00 AEST will be advised of the outcome on 14 March 2014 by email. An RFT will be sent to successful vendors on 17 March 2014.
